## Student Progress

Develop formal programs to assess student progress in order to drive instruction & curricular improvements.

Objective 1:  
Create clear policies and procedures for analyzing data to verify improvements in student learning.

Objective 2:  
Ensure that all school personnel systematically and consistently use data results to impact continuous student improvement.

## Technology

Focus technology resources to support educational programs, high student achievement and continuous improvement.

Objective 1:  
Increase student and staff access to media and informational resources through the development and restructuring of the library media center.

Objective 2:  
Increase the district's media presence.

## Professional Development

Areas of Focus:

Effective instructional strategies that require students to apply knowledge and skills, integrate content and skills with other disciplines and use technologies as instructional resources and learning tools.

Unique characteristics of learning, such as reflective teaching practices, trauma informed teaching, character education, learning styles, brain-based learning, etc.

Relationship Strategies that maximize student learning and strengthen school culture.

Emergency preparedness to ensure that staff and students are prepared for eventuality of any emergency.

## Curriculum

Acquire challenging curriculum and review all curriculum, ensuring that it is aligned and clearly described for all subject areas.

Objective 1:  
All schools will have instructional materials, tools, & human resources to support high student achievement.

Objective 2:  
All students will show academic growth (beginning to end of school year) through a curriculum that challenges each to excel.

Objective 3:  
Ensure that the curriculum is aligned with the sequence of learning for that subject matter and with assessments.

Objective 4:  
Implement a comprehensive career and college planning program. Included will be a comprehensive life skills program to equip all students with basic skills necessary to function in society.

## Community Partnerships

Develop formal programs for families to aid in their children's education and engage the community in school development.

Objective 1:  
Develop, establish and maintain partnerships with families and community organizations to improve educational quality & increase educational opportunities.

Objective 2:  
Develop a comprehensive mentoring and volunteer program.

MISSION

EMPOWERING STUDENTS TO DEVELOP RESPONSIBILITY, ACHIEVE ACADEMIC EXCELLENCE, AND SUCCEED AS LIFELONG LEARNERS.
